

Checklist: V-Ray for 3ds Max (Student Version)

Step 1: Create Chaos Account

- Go to <https://www.chaos.com/education>
- Click 'Apply for Educational License' or 'Sign Up'
- Use your student email if possible
- Verify your email via the link sent to your inbox

Step 2: Submit Student Verification Documents

- Login to your Chaos account
- Go to 'Apply for Educational License'
- Upload: Valid Student ID, Enrollment Proof (admission letter, fee receipt, etc.)
- Ensure documents are current
- Submit and wait for approval (may take 1-2 days)

Step 3: Approval & Download Access

- You will receive an email once approved
- Go to 'My Products' in your Chaos account
- Find V-Ray for 3ds Max and access download options

Step 4: Download & Install V-Ray

- Visit <https://download.chaos.com>
- Choose V-Ray for 3ds Max (compatible version)
- Run the installer and follow on-screen instructions

Step 5: Install & Activate License Server

- Install Chaos License Server (included in setup)
- On first launch, log in using Chaos account
- Ensure internet access and no firewall blocking

Step 6: Enable V-Ray in 3ds Max

Checklist: V-Ray for 3ds Max (Student Version)

- Open 3ds Max
- Go to Render Setup > Renderer
- Select 'V-Ray' from the renderer dropdown
- V-Ray toolbar should now be visible

Important Tips

- License is valid for 1 year (can be renewed)
- Use same email throughout the process
- Never use pirated or cracked versions
- Internet is required for activation
