

Court Case Diary Features

Advocate Diary is a powerful and intelligent tool designed to simplify and streamline the daily tasks of legal professionals.

Core Features:

* **Case Management:**

- * **New Case Entry:** Easily add new case records with comprehensive details including First Date, Case Number, and Description.
- * **Edit Case Details:** Modify existing case information through a dedicated "Case Details & Edit" pop-up window.
- * **Delete Cases:** Remove cases from your diary when no longer needed.
- * **Auto-Update Dates:** Automatically updates "Old Date" and clears "Next Date" for cases where the date has passed.
- * **Duplicate Case Prevention:** Warns you if you attempt to save a case with an existing case number.

* **Data Management & Search:**

- * **Excel File Integration:** Work directly with Excel files (.xlsx, .xls) as your primary data source.
- * **Select Excel File:** Choose your main Excel file for case storage.
- * **Search Cases:** Efficiently search for cases based on any detail within the record (Case Number, Date, Description).
- * **Search Results Window:** Displays search results in a clear, sortable table.
- * **Import Data:** Import case data from other Excel (.xlsx, .xls) or CSV (.csv) files, with intelligent mapping.
- * **Export Data:** Export your case diary data to Excel (.xlsx), CSV (.csv), or HTML (.html) formats for reporting.

* **Calendar & Reminders:**

- * **Case Dashboard/Calendar View:** Visualize scheduled cases on an interactive calendar.
- * **Monthly Alerts:** Receive alerts for cases scheduled in the current month upon application startup.
- * **Date Highlighting:** Calendar highlights dates with scheduled cases.
- * **View Cases by Date:** See a list of cases scheduled for a specific date selected on the calendar.
- * **Direct Editing from Calendar/Search:** Double-click on a case in the calendar or search results to edit details.

* **Notes & Attachments:**

- * **Rich Text Notes:** Add detailed notes for each case with basic formatting options (bold, italic, underline).
- * **Notes Full-Screen View:** Expand notes to a full-screen editor for extensive writing.
- * **Print Notes:** Generate a printable report of individual case notes.
- * **Attachment Management:** Link multiple attachments (documents, images, etc.) to each case.
- * **Attachment Storage:** Configure a dedicated folder for storing case attachments.
- * **Open Attachments:** Easily open attached files directly from the case details.

* **Licensing & Security:**

- * **Trial Period:** A trial mode is available (15 days) to evaluate the software.
- * **Product Activation:** Activate the software with a license key (permanent or temporary).
- * **Hardware ID Binding:** Licenses are tied to your system's hardware ID for security.
- * **Print Watermark:** Trial versions include a "TRIAL VERSION" watermark on printed reports.

* **Usability & Integration:**

- * **Intuitive Interface:** User-friendly graphical interface designed for legal professionals.
- * **Print Reports:** Generate detailed reports of selected cases.
- * **Copy Serial Number:** Easily copy your system's unique serial number for license activation.
- * **Self-Test Utility:** A diagnostic tool to check application health, file accessibility, and missing columns.
- * **Run at Windows Startup:** Option to automatically launch the application when Windows starts (Windows only).
- * **Minimize to Tray:** Option to minimize the application to the system tray instead of fully closing it (Windows only).
- * **Sales & Support Contact:** Dedicated contact information for support inquiries.
- * **About Us:** Information about the software and its development with AI assistance.

■■ Disclaimer: In Case of Software Crash

While every effort has been made to ensure the stability and reliability of the **Court Case Diary** software, the user assumes all responsibility for any data loss or system issues that may occur.

- **Regularly back up their data** using the built-in export options.
- **Run the “Self-Test” utility** periodically to detect configuration or file access issues.
- **Avoid force-closing the application** while it is performing operations like save, import, or export.

The developers are not responsible for any data loss resulting from unforeseen crashes. For assistance
