Subject: Clarification Request Regarding Clause 4.1.2 in Claim Rejection

Dear Kamakshi Bai,

Thank you for your response regarding the rejection of my health insurance claim under Policy No. ASHP202400001607 and Claim No. 25062100350/1.

I have carefully reviewed the content of your letter dated earlier, which mentions Clause 4.1.2 pertaining to Specific Illnesses. However, to ensure a transparent and fair understanding, I respectfully request ACKO to provide the following details:

👉 Please provide the ****specific list of diseases, conditions, or surgeries**** referenced in Clause 4.1.2 that are subject to the 2-year waiting period.

My claim pertains to the treatment of ****Tight Phimosis with Balanitis and Meatal Stenosis****, for which the procedure of ****Circumcision and Meatoplasty**** was advised on urgent medical grounds. I could not locate any of these terms or related procedures under the exclusions mentioned in my policy document.

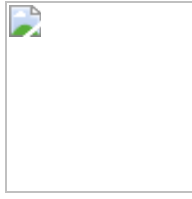

Therefore, I seek precise clarification:

- Whether the above-mentioned diagnosis is explicitly listed under Clause 4.1.2.
- If yes, kindly provide a copy of the referenced list with appropriate clause/annexure number for verification.
- If not, please clarify the justification behind rejection under this clause.

This clarity will help in determining the further course of action as advised in your letter, including escalation to IRDAI or Insurance Ombudsman, if required.

Looking forward to your early and transparent response.

Sincerely,
Vikas Gandhi
