

Court Case Diary Help & Support

This document provides guidance on using the Court Case Diary application.

1. Getting Started

1. **Select Excel File:**

- * Upon first launch, or if no file is selected, you will be prompted to select an Excel file. This file will be used to store the data.
- * Click "Select Excel File" to browse for an existing .xlsx or .xls file, or to create a new one. If you select a new file, it will be named "Court Case Diary.xlsx".
- * The path of the selected file will be displayed as "Current file:".

2. **Product Activation:**

- * The application operates in a trial mode for 15 days.
- * To activate the full version, click "Manage License".
- * Your "System Serial Number" will be displayed. Copy this and provide it to the vendor (9amdeal@gmail.com).
- * Enter your product key in the "Enter Product Key" field and click "Activate License".
- * The license status will update (e.g., "Licensed - Permanent" or "Licensed - X days remaining").

2. Managing Cases

2.1. Adding a New Case

1. Click the "New Case Entry" button on the main screen.
2. A "Case Details & Edit" window will appear.
3. Fill in the relevant details for the new case:
 - * **First Date:** The initial date of the case.
 - * **Case Number:** (Mandatory) A unique identifier for the case.
 - * **First Party, Second Party:** Names of the parties involved.
 - * **Court Name:** The name of the court.
 - * **Old Date:** The previous hearing date (if applicable).
 - * **Next Date:** The next scheduled hearing date.
 - * **Notes:** Add detailed notes. You can use the "B" (Bold), "I" (Italic), "U" (Underline) buttons for basic formatting.
 - * **Attachments:**
 - * Click "Add Attachment" to link files (documents, images, etc.) to the case. These files will be copied to the application's data folder.
 - * Double-click an attachment in the list to open it.
 - * Select an attachment and click "Remove Attachment" to unlink it from the case (the physical file remains on your computer).
4. Click "Save Case" to store the new entry.

2.2. Editing an Existing Case

1. **From Search Results:**
 - * Enter a search term in the "Search Case" field and press Enter or click "Search".
 - * In the "Case Search Results" window, double-click on the desired case, or select it and click "Edit Case".
2. **From Dashboard/Calendar:**
 - * Click "View Calendar".
 - * In the "Case Dashboard" window, navigate to the desired date.
 - * Double-click on the case listed for that date.
3. The "Case Details & Edit" window will open, pre-filled with the case's information.
4. Make your changes and click "Save Case".

2.3. Deleting a Case

1. Open the case you wish to delete in the "Case Details & Edit" window (see Editing an Existing Case).
2. Click the "Delete Case" button.

3. Confirm your decision when prompted.

3. Searching and Viewing Cases

3.1. Search Functionality

1. Type a keyword, case number, party name, or any other relevant term into the "Search Case" field on the left.
2. Press Enter or click the "Search" button.
3. A "Case Search Results" window will display all matching cases.
4. You can sort the results by clicking on column headers.
5. Use "Select All" / "Deselect All" to manage selections.
6. "Edit Selected Case" will open a single selected case for editing.
7. "Print Selected Cases" will generate an HTML report of the selected cases.

3.2. Case Dashboard (Calendar View)

1. Click the "View Calendar" button.
2. The "Case Dashboard" window will display a calendar.
3. Dates with scheduled cases will be highlighted.
4. Select a date on the calendar to see a list of cases scheduled for that day in the table on the right.
5. Double-click a case in the list to open its full details for editing.
6. Click "Print Full Details" to generate a report of all cases shown in the monthly alert.

3.3. Monthly Case Alert

- * When the application starts, it automatically checks for cases scheduled in the current month and displays them in the alert.
- * Cases scheduled for *today* will blink red in this alert.

4. Data Operations

4.1. Import Data

1. Ensure you have your main Excel file selected.
2. Click "Import Data".
3. Select an Excel (.xlsx, .xls) or CSV (.csv) file containing data you wish to import.
4. The application will merge the imported data with your current data, using "Case Number" to identify duplicates.

4.2. Export Data

1. Click "Export Data".
2. Choose a location and format (.xlsx, .csv, or .html) to save your current case data.

5. Settings and Utilities

5.1. Run Self-Test

- * Click "Run Self-Test" to perform a diagnostic check of the application's configuration, file access, and database connection.

5.2. Application Settings

- * **Run at Windows Startup:** Check this box to have the application launch automatically when Windows starts.
- * **Minimize to Tray on Close:** Check this box to send the application to the system tray (notification area) when closed.
- * **Change Attachment Folder:** Click this button to select a new directory where your case attachments are stored.

6. Support and Information

***6.1. About Us**

* Click "About Us" for information about the "Advocate Diary" application, its version, and development

***6.2. Sales & Support**

* Click "Sales & Support" for contact information regarding inquiries, sales, or technical assistance.

* **Contact:** 9am Deal

* **Email:** 9amdeal@gmail.com

*** **Support Hours:** 9:00 AM to 6:00 PM IST (Monday to Saturday)**

7. Exiting the Application

* To fully exit the application, click the "Exit" button in the bottom right corner.

* If "Minimize to Tray on Close" is enabled, clicking the main window's close button will send it to the tray

8. ■■ Disclaimer: In Case of Software Crash

While every effort has been made to ensure the stability and reliability of the **Court Case Diary** softv

- ****Regularly back up their data**** using the built-in export options.
- ****Run the “Self-Test” utility**** periodically to detect configuration or file access issues.
- ****Avoid force-closing the application**** while it is performing operations like save, import, or export.

The developers are not responsible for any data loss resulting from unforeseen crashes. For assistance,
